## THE HIGHEST CALLING

*I firmly believe that the most important thing we do in life is provide our children with faith, knowledge, and direction. Much of this process takes place in day-to-day interactions at home between family members, as well it should. A parent is the single most influential teacher in a child's life.*

*Our purpose at Grace Lutheran School is to promote excellence in education and to nurture each child in an environment of compassion, reaching out with the love of Christ!*

*I have the remarkable privilege of working with the finest teachers. Our staff is second to none and the support we receive from our families is truly humbling. If the opportunity arises for your child to enroll with us, I assure you of our best efforts in the transfer of knowledge and Christian guidance in a nurturing, caring environment.*

For the children,

Gabe Flicker

## FORWARD IN FAITH

The more than 50-year journey from Center Street to Baldy Avenue has been punctuated by growth and change. The faith and hard work of dedicated parishioners transformed a small basement kindergarten into the preschool

through 8th grade and National Blue Ribbon School of Excellence, we are so proud of today.

The goal has always been focused on the children of our community and the need to enrich their lives through Christian education. This includes math, English and the sciences, and also provides knowledge based on a tradition of solid Christian belief. Our simple goal is to give our children what they need to be successful in this life and the next. To that end we have brought together some of the best minds in education and the most advanced technology.

## CHILDREN THRIVE IN THIS ENVIRONMENT

It's not difficult to tell if a child is happy with his or her learning experience. All you have to do is watch and ask questions; students will generally tell you how they feel. If you are considering enrollment, we invite you to tour our campus and find out for yourself just what makes the program we've put together at Grace Lutheran School so successful. You'll find well-adjusted students that exceed Idaho proficiency standards in all grades and all subjects. This remarkable performance underscores the balanced emphasis we place in all curricular areas. It also speaks volumes about the dedication of our certified staff.

## FORWARD FOCUS

At Grace Lutheran School, we have integrated the best of modern learning tools along with proven traditional teaching. Our state-of-the-art computer and technology labs include printers, graphing calculators, digital cameras, and scanners. Each classroom has computer stations for students, and everyone has access to the portable laptop computer lab. In orchestra, choir, art, physical education, and sports, the tried and true wins the day. Of course, a meditative trip to chapel still punctuates each week's activities.

One thing in education that always remains constant is the need for dedicated teachers.

At Grace, we've been fortunate to have attracted educators who are here for the right reason...their dedication to each student. They take personal responsibility for the mental and spiritual growth of each student. At Grace Lutheran School, we teach not only how to count, but what really counts: faith in Jesus Christ.

## WHERE WE LEARN

Our student population has grown steadily over the last few years. This has resulted in locating our school on two campuses. Our Early Childhood Center for children ages 3 through 5, who desire preschool with childcare, is located at 1250 Pershing. This facility also houses our Extended Care program and Summer Care program for the before- and after-school care of students in grades K-5.

Our campus at 1350 Baldy is the location of our Preschool through 8th grade. This facility includes a gym, a modern kitchen for daily hot lunches, and a library. We currently have two classes for grades Preschool through 8th at our Baldy Avenue campus.

Field learning has always been exceptional at Grace, and each class takes their learning experience out of the classroom for first-hand observations.
